User-Centric Front-End Developer with 3+ years of experience building responsive, high-performance web applications. Expert in modern CSS frameworks like Tailwind and Bootstrap, with a strong foundation in JavaScript and a growing proficiency in React.js. Proven ability to bridge the gap between design and technical implementation using Figma and efficient UI/UX principles.

TECHNICAL SKILLS

- **Front-End (Primary):** HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap, React.js.
- **Design & Prototyping:** Figma, Canva, Responsive Design, UI/UX Principles.
- **Development Tools:** Git, GitHub, Docker, Prettier, Chrome DevTools.
- **Supporting Back-End:** PHP, MySQL, Node.js
- **AI-Assisted Development:** GitHub Copilot (code suggestions), ChatGPT (debugging and refactoring)

WORK EXPERIENCE

Front-End/UI Developer | FLIQUEY Entertainment | Feb 2025 – Present

- Developed responsive UI components for a Netflix-like streaming platform and a feature-rich social media web application.
- Assisted in redesigning the social media platform and migrating the UI from Bootstrap to Tailwind CSS.
- Converted Figma designs into production-ready, mobile-first interfaces.
- Integrated front-end components with APIs and tested UI features for performance and stability.

Full-Stack Developer | Blaseek | May 2024 – Jan 2025

- Designed and deployed the company website, initially built with vanilla HTML, CSS, JavaScript, and Bootstrap.
- Rebuilt the site using React.js, Vite, and Tailwind CSS to modernize the UI and improve performance.
- Converted static pages into reusable React components and migrated contact forms from PHPMailer to EmailJS.
- Delivered a responsive, production-ready website optimized for speed and maintainability.

Full-Stack Web Developer (Freelance) | Various Clients | Aug 2022 – Present

- Redesigned and fixed responsiveness issues for client websites using HTML, CSS, JavaScript, and Bootstrap.
- Improved performance by optimizing images and converting assets to WebP format.
- Designed and developed responsive landing pages tailored to client needs.
- Optimized website content and implemented basic SEO best practices.

Front-End & Database Designer (Intern) | OJT | Sep 2023 – Jan 2024

- Collaborated within a development team to build and refine responsive user interfaces using Bootstrap and PHP.
- Optimized user experience by restructuring MySQL database queries, resulting in a 200% increase in data retrieval speed for the front-end.

EDUCATION

Bachelor of Science in Information Systems | City College of Calapan | 2020 – 2024

Specialization: Systems Design and Web Development

Capstone Project: NLNP-PAMO Online Permit Management and Database System

- Developed a centralized web-based system to replace manual processes, streamlining permit processing and database management.
